

PROFESSOR DR.

Mostafa EZZIYYANI

International Expert in Artificial Intelligence, Digitalization, Data Science, Cybersecurity, Data Analysis and Data Protection

Professor of Higher Education	President	Advisory Member	Expert in Cybersecurity
Abdelmalek Essaadi University	Innovation & Technology Transfer Organization	Union of Arab Scientific Research Councils	Digital Forensic Analysis

PROFESSIONAL PROFILE

Professor Mostafa EZZIYYANI is a research professor and international expert in artificial intelligence, digitalization, data science, big data analytics, data protection, cybersecurity, distributed systems, databases, software engineering and intelligent web technologies. Since 1996, he has combined research, teaching, academic leadership, strategic consulting, innovation, technology transfer and international project evaluation, with more than three decades of experience.

KEY FIGURES

30+	200+	10+	350+
Years experience	Scientific papers	Research projects	Supervised works

ACADEMIC QUALIFICATIONS

2006

PhD, Heterogeneous Information Systems Engineering
Abdelmalek Essaadi University, Morocco; joint supervision with Luminy University, Marseille, France.

1999

PhD, Distributed Systems and Web Technologies
Mohammed V University, Rabat, and ENSIEET, Toulouse, France.

1996

Master's, Software Engineering and Programming
Mohammed V University, Rabat, Morocco.

1994

Bachelor's, Computer Science
Mohammed V University, Rabat, Morocco.

CERTIFICATES

IBM Big Data Specialist Certificate
Multi-Agent Systems and Applications Certificate
Oracle Database Administration (DBA) Certificate
ArcGIS Training Certificate

LANGUAGES

Arabic: native
French: academic and professional
English: academic and professional

President of AI2SD International Conference

"Scientific research, innovation and technology transfer help build a sustainable future and an advanced knowledge society."

TECHNICAL QUALIFICATIONS

- Artificial intelligence and machine learning
- Generative artificial intelligence
- Data science and big data analytics
- Data engineering and predictive analytics
- Intelligent systems and decision support systems
- Distributed systems and systems integration
- Databases and data warehouses
- Software engineering, programming and intelligent web
- Cybersecurity and digital data protection
- Digital transformation, governance and digital sovereignty
- Internet of Things, smart environments and intelligent systems
- Innovation and technology transfer
- Valorization of scientific research results
- Digital twin systems and cloud computing

SCIENTIFIC AND ACADEMIC ACHIEVEMENTS

- **International experience:** teaching, research, consulting, arbitration, project evaluation and partnerships across France, Belgium, Spain, the Netherlands, China, the United States, Tunisia, Djibouti, Qatar and other countries.
- **Judicial and consulting expertise:** certified/sworn expert in cybersecurity, big-data interpretation and digital-evidence cases; consultant in AI, digital transformation and data protection.
- **Innovation and patents:** holder of several registered patents in technology, software and intelligent systems; experienced in research valorization and technology transfer.
- **International recognition:** ranked first worldwide in 2018 in smart environments; recipient of Arab and international scientific recognitions and keynote speaker at international conferences.
- **Cybersecurity and data protection:** specialized expertise in cybersecurity, data protection, digital forensics, information-system analysis, digital-risk assessment and big-data analysis.
- **International project evaluation:** expert evaluator and reviewer of research, innovation and technology projects, including funding-oriented projects and scientific review committees.
- **Visiting professor:** contributor for many universities and research centers worldwide.
